

Help Wanted

NBW Webmaster

This is a volunteer position. The webmaster needs web editing experience and possesses the necessary programs to regularly update and create web pages and FTP to our host site. The job involves working regularly with the Touring Chair to post ride schedules and maps, with TFCE Committee Chairs to post time-sensitive announcements, with the NBW President and other officers, and with club members for contributions. This person will be involved with a professional website designer to redesign the NBW website—nbwclub.org

If you are interested in helping our club in this position, please contact NBW President, Michelle Cortes-Harkins at president@nbwclub.org or Monica Foulkes at webmaster@nbwclub.org

Note from your current Webmaster:

It has been 12 years since I took over as Webmaster. Looking back, I've achieved what I intended when I began, but now my skills are out-of-date and my Dreamweaver editor is giving me problems. Now that the Board has decided to redesign our website, it's an appropriate time for me to step down and for a new Webmaster to be involved in this redesign.

Monica Foulkes

A bit of history about our website—nbwclub.org—as far as I know:

1996 NBW ride schedule was posted on a website hosted by a Lincoln bike shop (www.bandbcycle.com/bikes)

1997 club member Brian Aljian posted the first NBW web pages of ride schedules, contacts, links and a message board on his own website (www.aljian.com/nbw)

1998 the NBW information moved to the website of another member, Monique Robitaille

1999 the club got its own web address (nbwclub.org) with a site hosted by Network Solutios

2001 Rob Price became Webmaster and developed the display, information and services into a large, informative website.

2008 Monica Foulkes became Webmaster. Over the next years the NBW Maps, newsletter, TFCE registration, and GPS ride files went online. The website was last redesigned in 2011.
