SCENIC NOTES:

A favorite old ride. Though western Cranston is no longer a rural area, several farms and orchards remain. Terrain is rolling and somewhat hilly along Rt 12, especially on the lower part of the Scituate Reservoir. Note the dam at the southern end, which makes for a nice run. You may still be able to see some remains of the flooded villages if the reservoir is low.

HELMETS ARE REQUIRED
ON NBW RIDES
