15 miles: ?

30 miles: right onto Rt. 102 from Snake Hill Rd.

62 miles: do metric loop to Putnam, Ct. then right onto Church at Rt. 171

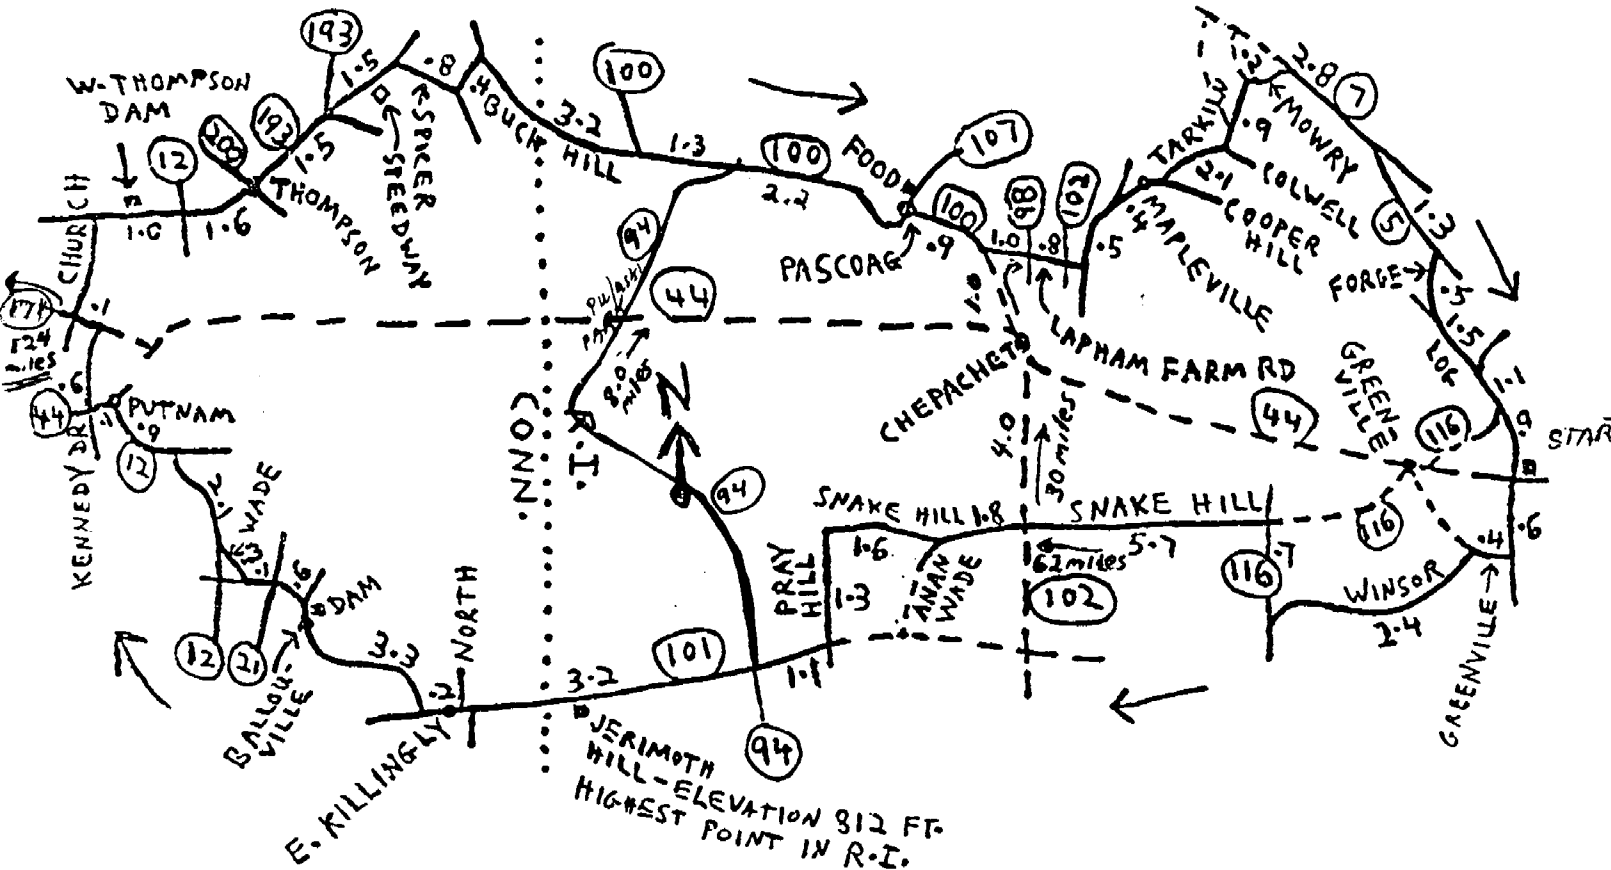

124 mile: do double metric loop. Left onto Rt. 171 from Church St.

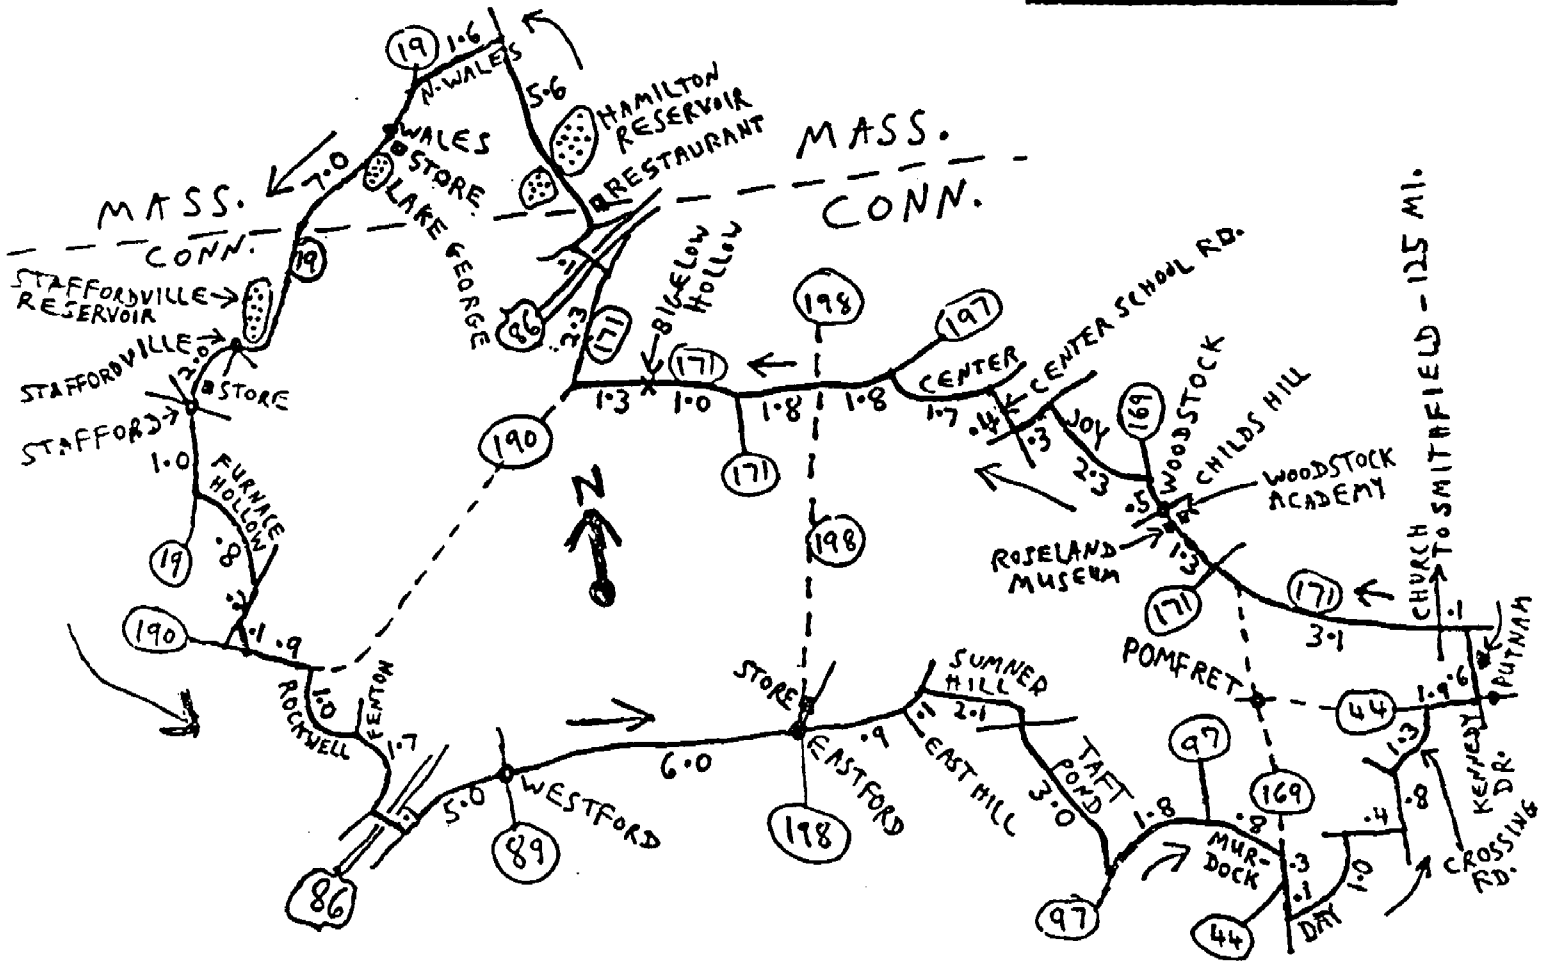

Helmets are required to prevent serious head injuries.

Special notes (METRIC CENTURY) *CHALLENGING TERRAIN*

This unique tour offers a ride in the tri-state area. The metric ride crosses into Ct. by way of R.I.'s highest point, Jerimoth Hill, into Putnam, a spin through Thompson Dam and a return down Buck Hill. Food stops are shown on the map.

**Helmets  
Save Lives**

SPECIAL NOTES (DOUBLE METRIC)

This portion of the ride heads out towards Woodstock. It then climbs to the Hamilton Reservoir in Ma. then swings by the Staffordville Reservoir, which is the farthest point west on the ride. Stop in Staffordville for lunch or 15 miles later in Eastford. When you return to Putnam, be sure to go straight on Church at the Rt. 171 intersection. From this point, follow the metric ride back to Smithfield.
