18, 29 & 52 Mile Rides

The Purgatory Chasm ride (#117) has been a perennial favorite of the NBW. It has been on the schedule for nearly every year in the last decade.

After arrowing the ride most of those times, long time member **Chip Kent** has decided to modify the ride, creating a new (ish) ride, preserving the good parts of the old ride and adding some new parts.

All routes start with the climb up through the Chasm but the longer ride now passes through three states... (hence the name) MA, CT and RI and avoids going into Chepachet which is on several other club rides. **Food and water can be found on the long ride at the King Family Campground on Holt Rd (19.9 miles) as well as in Millville (miles 45-46).** The long route goes up Buck Hill, but from West to East, which Chip says is less steep than East to West!
